### Brainy Builders (K-4)

Day: Friday

Start: 1/26/18

End: 5/4/18

No class: 2/23, 4/6

Time: 2:30-3:30

Cost: \$227.50 / 13 weeks

# Brainy Builders™

## learning through building!

With our guided program children learn the fundamentals of math and physics as they play. We offer a variety of fun & engaging, age-appropriate projects for beginners all the way to advanced builders (grades K-4). Using creativity, teamwork, and problem solving, students learn through building and testing machines and structures created with Lego and K'nex kits not available in stores. Every new project features thought-provoking themes like simple and motorized mechanisms, outer space, transportation, traveling, and community. For our advanced builders (grades 3 and 4) projects involve construction and software programming providing movement to their Lego models while learning logic, sequencing and problem solving. Each of our advanced building activities provides a challenging series of STEM activities.
